**voestalpine**  
ONE STEP AHEAD.

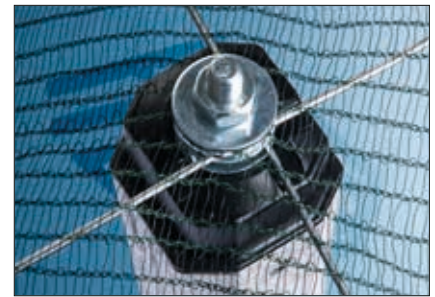

# leova® FRUCTUR – Pure advantages

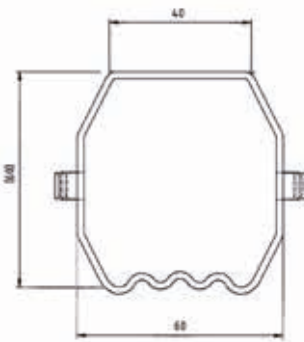

**Simply clever:** Connection clamp makes two stakes into an end stake.

**Quickly and securely** placed with the practical ground anchor.

**Top benefit:** Anti-hail nets are easy to fasten to the end cap.

Strength in a slender and elegant form: the 60 x 60 mm section

voestalpine is now also bringing the steel quality tried and tested in viticulture to fruit growing. Flexible like wood, long-lasting like concrete and with an impressive array of advantages, leova® Fructur, the super-strong steel stake, is the solution for modern fruit growing:

## The efficiency is impressive

- Light, long-lasting, super-strong
- Complete system
- Easy to place  
(up to 20 hrs/ha quicker)
- Highly resilient
- Machine-proof
- For all common types of wire
- Secure wire anchoring
- voestalpine quality steel

End cap with unique click system:  
Place – push – click!

## Strip galvanised as per standard EN 10346

350 g zinc/m<sup>2</sup>
